

ENERJET (formally known as New Air and Tours) SELECTS RAMCO'S OnDemand (SaaS) M&E & Financials

Lawrenceville, New Jersey – October 27, 2008 – Ramco, the Global Aviation Maintenance & Engineering (M&E) and Maintenance, Repair & Overhaul (MRO) software provider, announced today that Canadian based Enerjet has selected its suite of Aviation Maintenance and Enterprise Financial Applications. Enerjet offers charter flights throughout Canada.

“Ramco’s Aviation Suite will provide Enerjet with critical information and real-time analysis for proactive decision-making. These products will support our ongoing business process improvement initiatives allowing us to optimize our resources and continue to provide the most reliable cost effective service in the industry. We selected Ramco after an extensive evaluation of the industry’s software vendors and are very excited to welcome the Ramco team into our business as key partners,” said Darcy Morgan – co-founder and Vice-president, Enerjet.

“We are very pleased with the agreement reached with Enerjet. Enerjet will be the newest addition to Canada’s aviation landscape. Planning to launch in Q1 2009, with state of the art Boeing 737-700 Next-Generation aircraft, Enerjet will be available for charter to Canadian companies, organizations or groups. Ramco’s Aviation Solution will support Enerjet’s entire M&E and financial suite with growth opportunities surrounding Ramco’s analytics, technical publications, electronic flight bag and additional unique business process needs. We are very excited about the opportunity to bring value added cost savings to Enerjet’s daily business operation and look forward to a lasting relationship as Enerjet continues to grow.” said Jim Fitzgerald, president, Ramco’s Global Aviation Solutions.

For more information, visit Ramco online at www.ramcoaviation.com.

About Enerjet a.k.a NewAir and Tours

In 2007, a small team of entrepreneurs and proven airline industry veterans noticed some gaps in the Canadian travel sector. These included missed charter opportunities, underserved markets and a general lack of choices in some communities. The team developed a plan and commenced business under the working name "New Air and Tours." Over the past 18 months, the team has evolved and is now branded, named and operating as Enerjet. As Enerjet grows it will add product lines beyond charter aircraft, such as tour packages, custom workforce product solutions and special seasonal point to point air services. In the future, they plan to provide innovative travel products that will add to the Enerjet charter experience. Find out more at <http://www.enerjet.ca/>
