

AIR WORKS SELECTS RAMCO'S MAINTENANCE &ENGINEERING, MATERIALS MANAGEMENT AND MRO MODULES

Lawrenceville, New Jersey – December 12, 2008 – Ramco, the Global Aviation Maintenance & Engineering (M&E) and Maintenance, Repair & Overhaul (MRO) software provider, announced today that India based Air Works has selected its suite of Maintenance & Engineering, Materials Management and MRO modules covering the operations of both the General Aviation as well as Commercial Aviation MRO.

"We are very pleased to have reached an agreement with Ramco to use their specific MRO software solution for our Commercial and General Aviation MRO operations throughout India. We have spent over 6 months evaluating the different software offerings in the market, and we finally decided on Ramco as the best suited for our operations. Once implemented, it should improve our internal operations, and serve as a value added tool for our present and future Customers " - CEO of Air Works India Engineering Pvt Ltd - Mr. Fredrik Groth

Based in Mumbai, Air Works is the most recent addition to Ramco's Aviation-MRO Family of Customers. Ramco's Aviation Solution will support Air Works' complete business processes of the MRO operation. "Air Works will be supported by Ramco's Chennai operation. We are very excited to add Air Woks as our most recent Aviation Customer in India," said Jim Fitzgerald, president, Ramco's Global Aviation Solutions.

About Air Works

Air Works is India's leading provider of Aviation Services, the largest independent General Aviation and MRO company in India. Established in 1951, Air Works is headquartered at Mumbai International Airport and has additional facilities in 8 airports around the country. Air Works currently provides a broad range of aviation related services: Maintenance, Repair, Overhaul and modifications of fixed and rotary wing, Charter Operations through Non Scheduled Operator's license, Flight Service Facilitation and Aircraft Sales Representation. Air Works has recently opened the first independent commercial airline MRO hangar in India, located at Hosur Airport, near Bangalore. This repair station received its DGCA repair station approval in November of this year. This unit will support a wide variety of commercial aircraft and will seek to add FAA and EASA approvals. Their service offerings include airframe maintenance, paint shop, passenger to freighter conversion, cabin modifications, avionics upgrades, aircraft component repairs and spares. <http://www.airworks.in>
