

Ramco Wins Prestigious Order from NACIL for MRO Offerings

For Immediate Release: September 27, 2010 - Lawrenceville, New Jersey – Ramco Systems, the Global Aviation Maintenance & Engineering (M&E) and Maintenance, Repair & Overhaul (MRO) software provider, announced a prestigious order win from National Aviation Company of India Limited (NACIL) for its suite of Aviation software offerings. As per the agreement, Ramco will provide its complete suite of Series 5 M&E and MRO products to NACIL, which operates Air India, Indian Airlines, Air India Express and Alliance.

Air India will soon bring all areas of its MRO facility onto a common IT platform; with the objective of increasing aircraft availability, reducing inventory, ensuring quicker turnaround times, and improving the overall cost effectiveness of its operation. Ramco's Series 5 software will help automate the business processes of line and heavy maintenance, component and engine maintenance, quality assurance, production, planning and control, material procurement, inventory, payments, and accounting functions, among others.

"Ramco is very proud to announce the signing of NACIL. A long time Indian Operation, Ramco looks forward to providing its latest suite Series 5 M&E / MRO for NACIL's complete fleet, cargo and 3rd party MRO business," said Jim Fitzgerald, president Ramco's Global Aviation Solutions Group.

According to a NACIL spokesperson, Ramco's solution will be of benefit by improving the turnaround time of business processes, leading to increased aircraft availability, reduced float requirement and consequent reduction in inventory. It will also help increase productivity of all resources. This would also enable the airline to improve its revenue earning through more third party MRO jobs.
